Dear Dr. Warren,

This is just an informal note as we have no specific date or place as yet. Sometime in February John O'dell is hosting a party for me and we would like to have several well known writers who have worked in the movement as honored guests. We are now planning on inviting James Baldwin and you and we may add a futher three also. Could you let me know whether you would be interested in attending our party, the purposes of which are mainly social and educational and if so what date would be convenient for you? We would very much appreciate your coming and feel it will be a great help.

Thank you very much.

Sincerely,

Maggie Toban
