

West Wardsboro, Vermont, July 7, 1964

Dr Kenneth B. Clark,
Borthside Center for Child Development,
31 Wwst 110,
New York City.

Dear Dr Clark:

Here is the transcript of our conversation. Will you kindly correct anything you wish and return to me. I am enclosing an addressed envelope to do that little to lighten your burden.

And I should like to ask another favor. As a sirt of foot-note to the interview I should like to make some brief reference to your involvement with the big Harlem project. I have followed things in the Times -- including the controversy with Powell -- and I should like to have a statement -- not a burdensome analysis, I know you haven't time for that, but a little summary. Would this be possible? If not, my feelings won't be hurt. But I feel that this would be an important little item.

Many thanks!

Very sincerely yours,

Robert Penn Warren
