Dear Albert:

Hasty note. Gabriel has just gone to his hospital for an operation tomorrow for a nasty big infection on thigh -- Staph. Not serious but not pleasant if it gets in blood stream. He's an unhappy but game little boy -- with birthday day after tomorrow.

Yes, I should like the dedication added to the new AKM.

I am sending -- or rather Mrs Callahan will send you -- the last part of Chapter III (Malcolm X) to insert in the MS you have. Then, will you read that chapter. I am well into short Chapter IV -- relatively short. I hope to have the first draft of whole done by mid-August. Will come to NYC for conference when desired -- or maybe we can get a visit out of you all. The place is turning out to be delightful.

E's book is having a great press, isn't it?

Love to all Eskines from all.

Yrs

PS. Could Suzanne send me verbatim quotable the Who's Who listing for Judhe ^Hastie? And date of birth for James Baldwin? And bio for Kenneth B. Clark. psychologist?

Thanks, Suzanne!
